

As a global organization of health-care providers of contraception, abortion and post-abortion care FIAPAC have the honor to invite you to the first Regional Symposium of FIAPAC

“Following the best practices in abortion care”

The aim of this meeting will be to introduce to the participant the principles of safe medical and surgical abortion, techniques and protocols, clinical follow-up and complication management. Well-known experts will present their knowledge about first and second trimester abortion procedures and will share their experience with auditorium.

If you are a resident or a health-care provider, involved in abortion service, do not miss the chance to discuss with colleagues and to learn the best evidence-based medicine practices in that field of gynecology.

We will be glad to have you on 01.04.2017 in Sofia on the FIAPAC Regional Symposium.
