# Call for projects 2020/21

**A € 10,000  
budget will be  
allocated**

## // Improving the quality of life for women having a medical abortion"

### Objective

This research grant aims to promote clinical research and best practices in the management of Termination of Pregnancy (ToP), which improve the quality of life and the autonomy for women before, during and after ToP. This includes but not limited to:

- ▶ Tolerance management and optimization with first trimester medical abortion
- ▶ Pharmaco-eco aspects of first trimester medical vs. surgical abortion
- ▶ Improvement of women's autonomy
- ▶ Per os administration of misoprostol
- ▶ Medical abortion beyond first trimester for medical reasons

The project must comply with the local Summary of Product Characteristics of the mifepristone.

### Eligible applicants

This grant is open to any Healthcare Professional involved in MToP such as gynecologists, general practitioners or midwives either registered or in training. They should be paid-up members of the FIAPAC.

### Selection process by the Scientific Exelgyn/FIAPAC Committee

- 1 -** Submission of the completed application form by email at [fiapacgrant@exelgyn.com](mailto:fiapacgrant@exelgyn.com) (deadline: **December 31, 2021**)
- 2 -** Selection of the beneficiary.ies by the Committee according to the quality and originality of the research proposal
- 3 -** Notification of the beneficiary.ies by an Exelgyn/FIAPAC representative by the end of January 2022 at the latest
- 4 -** Publication of the winning project(s) on the FIAPAC website
- 5 -** Official awarding of the winning project(s) during the next FIAPAC Congress
